Infrastructure Man-O & M Services

SERVICES

- We provide Services like Roll Out, Operation & Maintenance (O&M) of Optical Fiber Network for all major Telecom operators in India.
- We undertake O&M of network and facilities for all Towers and POS of Major Telecom operators.
- We are holding Infrastructure Provider Type-1 License from Department of Telecom, Government of India. We provide Dark Fiber/Ducts/Passive Infrastructure on Lease.
- We specialize in providing FTTX Solutions.
- We specialize in Installations and commissioning , O&M of FTTx, Small Cell, IBS and all Telecom Networks. We also provide required trained Man Power for above services.

INFRASTRUCTURE LEASING

Dark Fibre:
 Maharashtra: Mumbai, Thane and Pune
 Gujarat: Vapi, Surat, Vadodara, Ahmedabad and Gandhinagar
 Delhi: NCR Delhi

Our Promise

OUR VISION

To give our customers unprecedented support in CATV, Broadband and Telecom products and services. To facilitate and help our customers for delivery of content.

OUR MISSION

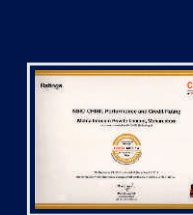

We intend to support the Vision by offering a wide range of quality products and services of the most advanced technology so as to empower our customers with the latest trend in Industry. A happy customer base is the barometer for any successful organization. We strive hard to strengthen this base through excellence by upgrading and updating ourselves. We try to enhance customer experience to create a business for mutual benefit and diversify our range of products and services for better growth. We always give precedence to creating an ecosystem for all associates and esteemed customers for long-lasting relationship. We will continually deliver our commitments.

Needless to say, all with blessings of the almighty GOD.

We say LIFE IS GROWTH.

OUR VALUES

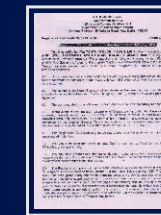

With utmost respect to humanity and morality, we intend to serve our customers with integrity, efficiency, commitment and consistency. With a resourceful team, we aim to deliver quality products & services and obtain customer satisfaction off the charts. As a learning organization, we always try to combine physical, emotional, and logical elements into one unparalleled customer and partners experience. This is what sets us apart. With these values deeply rooted, we aim to fulfil our Mission and visualize our Vision.
